| 01 |  | <p>Stainless Steel Basin Bowl (DIN 316). In developing the basin bowl and spa area there were many unusual solutions used such as the system drain and water supply in the basin bowl: it's implemented through the slotted nozzles hidden from the pool users. There is also a pool ladder concealed in the walls and a combined triple hot zone where possibilities of combining pneumatic (middle zone) and hydraulic (marginal seats) massages with separate switches were created.</p> <p>\$120000</p> |
| 02 |  | <p>A console table and a chair made of stainless steel.</p> <p>+ \$4000 + \$1500</p> |
| 03 |  | <p>A landscape object made of pipes and bends: the masterful combination of cylinder and torus areas creates the illusion of a biological object. Material: stainless steel DIN 304. Surface finishing is made by polishing.</p> <p>Designed by Sergei Verhunov.</p> <p>+ \$5000 + \$3700 + \$2300</p> |
| 04 |  | <p>A landscape object made by volumetric deformation of 2mm thickness stainless steel sheet. Polished sphere-shaped buds soften tough hi-tech base of the object and give it more natural look. Material: stainless steel DIN 304. Surface finishing is made by polishing.</p> <p>Designed by Sergei Verhunov and MetalStyle creative team.</p> <p>+ \$6000 + \$4000 + \$3000</p> |
| 05 |  | <p>An interior object made of stainless steel.</p> <p>\$1500</p> |

OBJECT**DESCRIPTION****ESTIMATED PRICE**

06

A modern interior installation made of stainless steel.

\$5000

Designed by Sergei Verhunov.

07

An easel made of polished stainless steel DIN 304.
Dimensions of the granite slab: 1300x2400mm.

\$15000

08

An interior object inspired by the TECKELL table by <http://www.adriano.design.it/>.
A lot of details were changed or redesigned: the field was leveled and made of fine wood with inlaid; field marking was made of polished stainless steel. There are also significant changes in the angle fasteners, handles, construction, position of gates etc.

\$12000

OBJECT**DESCRIPTION****ESTIMATED PRICE**

09

A BBQ grid made of polished stainless steel. The design allows to adjust the height above the flame due to the grid chain-pinion mechanism. The frying surfaces can easily be removed for washing as well as the fat tray.

\$4500

10

A canopy over the entrance to the building made of glass and painted steel.

\$10000

Designed by Pavlo Nagorniy.

11

An arbor. The columns simulate highly accurate casting; unconventional brackets, thread sheathing beneath the roofing sheets prove the high quality of the product. The roof is constructed from volumetrically deformed copper sheets.

\$50000

Designed by Tatiana Dryukova.

12

A rack for firewood made of sheet polished stainless steel.

\$1200

Designed by MetalStyle.

DESCRIPTION

ESTIMATED PRICE

13

Gates made of stainless steel and cooper.
Designed by Alexander Starozhilov.

\$8000

14

A garden installation inspired by Anthony Howe's kinetic sculpture. The vanes are moved by an electric motor, and the entire structure is placed within a rectangular case made of glass and steel. Along the perimeter of the kinematic system, there are lamps that create a bewitching play of light on the rotating elements of the sculpture.

\$40000

Design refinement by Oksana Bragina.

15

A sculptural image of a ruby in a stunning openwork frame: the piece of jewelry in the center of a garden has become its primary accent.

\$25000

Designed by Oksana Bragina and MetalStyle.

16

A polygonal sculpture of a lion is assembled from more than 500 pieces of stainless steel, meticulously fitted one to one and polished by hand. The astonishing reflections in the figure's planes captivate the viewer and turn the object into a real masterpiece.

\$50000

3D modelling by Max Smyslov.

OBJECT**DESCRIPTION****ESTIMATED PRICE**

17

A tree made of stainless steel pipes. Simple material turns into a sophisticated piece of art as a result of a great idea combined with high-quality implementation. The backlight gives additional expressiveness to the figure.

\$23000

Designed by Oksana Bragina.
